

LEE HYUNSOO

Art & Cultural Heritage Research | Korean Sources - Archives - Collections - Objects
South Korea | github.com/mueleesu | Portfolio repository: github.com/mueleesu/lee

PROFILE

Art Studies student at Hongik University developing a research practice around Korean-language source research, material culture, collections, archives, provenance, and cultural heritage. Focused on finding, verifying, organizing, and translating difficult source material into concise English-language research handoffs.

EDUCATION

Hongik University - Art Studies

Selected interests: material culture; collections and archives; provenance and collection history; cultural heritage; digital cataloguing.

SELECTED RESEARCH SAMPLES

Joseon Moon Jar: A Short Comparative Object Brief

Museum-record comparison and object-type research using National Museum of Korea and Metropolitan Museum of Art records.

Tracing “Moon Jar” Across Museum Sources

Source-tracing exercise that separates current catalogue usage from claims about the twentieth-century naming history.

Korean Ceramics Record Normalization

Cross-institution metadata sample mapping public museum object records into a consistent collection-data schema.

SKILLS

Research	Korean-language source research; object/artist research; museum database research; bibliography; chronology; fact-checking
Collections	Metadata cleanup; spreadsheet normalization; source logging; accession-number handling; basic catalogue support
Outputs	Research briefs; source tables; XLSX/CSV; bibliographies; structured notes
Languages	Korean - native; English - working proficiency

SCOPE NOTE

Research support only. No authentication, appraisal, legal advice, or definitive provenance opinions.
